

## Please Read before you choose a Professional Pool Service

We at Pool Care Plus believe in helping to protect the rights of consumers as a professional business.

For your safety we recommend that before hiring any pool service that you have a bit of information that may help you do this so that it does not hurt your pocket book in the long run.

Did you know?

- Just because a company promises a lower rate does not mean that they are the better choice. They could be performing services illegally or incorrectly in order to cut costs.
- Check with the AZ Corporation Commission or the State Secretary to verify they are a legit business.
- Taxes can only be charged to you if a transaction privilege tax license with the AZ Department of Revenue is held within the organization or proprietor.
- Work in excess of \$1000.00 per transaction (including labor & materials) requires a license with the AZ Registrar of Contractors.
- Does your service have insurance? They don't necessarily need to be bonded to be insured. Your service can carry liability insurance without bonding. So be sure to ask.
